

# Maroondah Climate Change Action

## Our Kids' Future

Join us in expressing concern about your kids' future due to the major parties' lack of strong policy on climate change!

Just turn up, or take an opportunity to express yourself about climate change – a poem, a drawing, a song, a symbol. One of our friendly polar bears from the North Pole will be there & loads of kids activities too!

The aim is to raise awareness about climate change, express our concern in a symbolic way, and let local our MP, Mr Phillip Barresi, know what we stand for and what we believe he, as our parliamentary representative, could be doing.

Concerned about Climate Change?  
Love your garden?  
Want to show your kids you care about how Climate Change could impact them?

Come along  
and receive a free seedling

10:30 - 11:30am

Cost: FREE!

Who: Maroondah Climate Change Action - MaCCA is a group of Maroondah residents who believe not enough is being done in Australia to combat dangerous climate change. MaCCA promotes the urgent need for immediate action, to make swift and significant cuts to our greenhouse gas emissions. We have solutions, we need leadership.
